

National Energy Conservation Day 2022

(On 17th January 2022)

	<p>Observation of NATIONAL ENERGY CONSERVATION DAY MBB College, Agartala, Tripura Catalysed by Department of Science, Technology and Environment, Tripura</p>	
<p> "NATIONAL ENERGY CONSERVATION DAY" Organized by Dept of Physics. MBB College, Agartala Theme:- "Azadika Amrit Mohotsav: Energy Efficient India and Cleaner Planet" Invited Speaker:-Dr. Biswajit Saha Assistant Professor, Dept of Physics, NIT, Agartala.  Webinar Link: https://meet.google.com/cha-xyys-yxp Date:-17th January,2022 Time: 12 PM</p>		

This year the theme of the National Energy Conservation Day 2022 was **"Azadi ka Amrit Mohotsav: Energy efficient India and cleaner Planet"**.

The National Energy Conservation Day was observed by MBB College which was catalysed by Department of Science, Technology and Environment, Tripura. The program for National Energy Conservation Day was organised by the Department of Physics. Dr. Biswajit Saha, Assistant Professor, Department of Physics, NIT Agartala was the invited speaker of the program. There was an online seminar considering the restriction of the pandemic situation. Around 100 students participated in the online webinar following the google meet link. Prof. Saha explained very lucidly and attractively the importance of energy conservation, different efficient ways to consume less amount of energy. He explained the responsibility of a scientist towards his or her nation.

He also shared different ongoing research works of NIT Agartala where they are preparing different energy efficient materials to produce different less power consuming devices.

The students took part actively in the interaction session. It was indeed a successful program.
