GEOGRAPHY

(Honours)

ELEVENTH PAPER (CC-11)

(Regional Planning and Development)

Full Marks : 60

Time : 3 Hours

*The figures in the margin indicate full marks.
Candidates are required to give their answers
in their own words as far as practicable.*

Section - A

1. Answer any *six* of the following questions : $2 \times 6 = 12$
 - (a) What are functional regions?
 - (b) Mention two objectives of NITI Aayog.
 - (c) Give one example each of Micro and Macro regional planning.
 - (d) Mention two cases of inter-state regional planning.

[Turn Over]

(2)

- (e) What are the two cornerstones on which Perroux bases his growth pole theory ?
- (f) Define economic growth.
- (g) Mention two fundamental factors of underdevelopment of any region.
- (h) What are the objectives of Urban Development programmes ?

Section - B

Answer the following questions. $12 \times 4 = 48$

2. (a) Define region. Discuss the objectives and various approaches of regionalization. $2 + (5 + 5) = 12$

Or,

- (b) How are formal and functional regions identified? Examine the flow analysis and gravitational analysis. $4 + 4 + 4 = 12$

3. (a) What do you understand by the term regional planning ? Evaluate the hierarchy of regional planning. Describe the characteristics of an ideal planning region. $2 + 5 + 5 = 12$

Or,

(3)

- (b) Define development. Discuss the problems that need to be kept in mind while planning for tribal development. Assess the agro-ecological zones of India. $5 + 2 + 5 = 12$
4. (a) Define regional growth. What is the difference between growth centre and growth pole? Critically analyse the growth pole theory of Perroux. $2 + 4 + (4 + 2) = 12$

Or,

- (b) What is development according to Hirschman? Explain the concept of unbalanced growth. Analyse the theory of Hirschman related to the economic development. $2 + 5 + 5 = 12$
5. (a) Discuss the economic and social indicators of development. Examine the measures of Human Development. $(4 + 4) + 4 = 12$

Or,

- (b) Evaluate the factors responsible for regional disparities in India. Mention the names of recent rural development-programmes and discuss their impact on regional development. $5 + (2 + 5) = 12$
